REDEVELOPMENT PROJECT

We have now moved in to the new classroom block. A few smaller details are still being sorted out, but the rooms and spaces are working well.

The focus of the redevelopment has now shifted to the front of the school, with MTHL block being readied to be demolished. Once this has occurred, this space will be landscaped and will provide more outdoor learning spaces.

We are looking forward to inviting the community in to have a look at the new gymnasium and teaching block at our open day on Saturday 18 June.

Development Partners:

SUPPORTING THE REDEVELOPMENT

As we have been planning our new buildings, there are several special items that we would like to include in the redevelopment that fall outside of the normal Ministry of Education or school funding streams. These items will support making the redevelopment and facilities the highest quality possible for students and staff to learn in.

We would like to acknowledge those people who have generously donated towards the funding of these items. If you would like more information about supporting the redevelopment project it can be found by clicking on the picture.

FROM THE PRINCIPAL

Tēnā koutou katoa

After another seesaw start to our school year, it was a relief and joy to welcome everyone back on site after several weeks of partial attendance for students and staff. It is also a delight to be in our beautiful new facilities – the gym complex has been fully operational since the beginning of the year and the Food/Art/Science/Technology block has been occupied since Monday 28 March. The courts are accessible again and the newly landscaped areas around the FAST block are mostly available.

Essentially, behind the hoardings around the school's original teaching block (MTHL), the environment is now modern and vibrant, and the most recent additions are stunning. We will continue to be constrained on the Pleasant Street side of the school while MTHL is demolished, and then will be able to further progress our landscaping plans together with the new facilities for our Central Auckland Specialist School (CASS) satellite classes. CASS is very much cut off from the rest of our school at the moment, with a car park being developed where once the Science and Business block stood at the top of our school site below the land leased from KiwiRail.

It is timely to acknowledge many people:

- Firstly, ngā mihi I thank you to students, staff and whānau, for again being so supportive throughout the challenges of the Covid-19 pandemic this term, including when we have not all been able to attend school in person; coping with learning from home; no gatherings beyond limited numbers; and our inability to welcome families in (yet!) to see our fabulous new and developing environment. Ngā mihi to all who attended the online hui to Meet the Deans and Whānau kaitiaki.
- Ngā mihi to students and staff for their forbearance with limited spaces over the past year and a half. Until this year, students and staff managed without a gym for 5 school terms, together with limited space to move around our campus. For nearly a year and a half leading up to 28 March, the access to various parts of our school has been extremely difficult. Throughout this time, students and staff have been gracious about our very constrained and inadequate campus. I am sincerely grateful to everyone for this.
- Ngā mihi to all those responsible for our redevelopment. Work to date includes the major part of the changes to our internal teaching and learning environment. As many of you know, it is well over a decade ago that we met all the criteria for a rebuild, after decades of creative planning and seeking partnerships to develop facilities to match our quality teaching and learning, and that would be right for our community. The gym complex and the Food/Art/Science/Technology block stand triumphant, due to the vision, talent, skill, hard work, collaboration and sheer tenacity of many people. Ngā mihi to:
 - # Our students and our staff – under served for too long, look at what we now have!
 - # Our Kaumatua [Tuturu](#) and [Kuia Lynne Haru](#)
 - # Our Board of Trustees
 - # [Gene O'Neill](#) and the Ministry of Education team
 - # [Leandri Hay](#) and the team at Ignite Architects
 - # [Ela Antoszewska](#) and the team at Beca
 - # [Chris Bourke](#) and the team at Naylor Love
 - # Our Property Manager [Graeme Nisbet](#), and Associate Principal and Project Lead [Gareth Leadbeater](#).Congratulations to us all! Ngā mihi maioha.

STUDENT ACHIEVEMENT

- Our student leaders have begun the year magnificently, despite the challenges. Peer support leaders, student council leaders and prefects are all to be acknowledged for their positive, effective and constructive leadership.
- [Timena Veni Moenoa](#) 13Sb has been awarded a 2021 NZ Scholarship in Samoan. This is our first ever Scholarship in Samoan, and Timena achieved this as a Year 12 student!
- [Georgia Hay](#) 12Wt has been selected for the BLAKE Inspire 2022 programme in October, with 34 other young leaders from around New Zealand.
- In the Junior Girls category at the Auckland Athletics Championships:
 - # [Lisa Hellyer](#) 9Ds was 7th in 200m, 6th in Long Jump, 11th in 100m, 2nd in 1500m
 - # [Sarah Hellyer](#) 9Pw was 9th in 200m, 11th in Long Jump, 16th in 100m, 3rd in 1500m
- Six students participated in the Polyfest Speech competition:
 - # [Elisetele Makalio](#) 9Pw placed third in the Year 9 competition
 - # [Timena Veni Moanoa](#) 13Sb won the Year 13 competition.
- #[Jasmine Swords](#) 10Ce and [Nu Phan-Huynh](#) 13To have been selected for Auckland Council's Young Leaders Sustainability Programme this year. With [Georgia Hay](#) 12Wt also being invited to support the programme as a Returning Young Leader.

FORMER STUDENT ACHIEVEMENT

[Josh Fraser](#) won the regional 2021 Registered Master Builders' Apprentice of the Year competition in September and then placed third in the national championship. Having now completed his apprenticeship, Josh is continuing his studies with a diploma in construction.

FROM THE PRINCIPAL

ACKNOWLEDGEMENTS

- Congratulations to **Ernie and Maureen Meyer** on their awards of Queen's Service medals in the New Year honours; Maureen for services to the community and Ernie for services to the community and education, both so well deserved for their long standing and invaluable voluntary contribution to our communities. We are indebted to Ernie who continues as the Project Manager on our house build each year with our Building and Construction School.
- After studying in our Adult Learning Centre, **Tiffany Tsai** joined the staff of Onehunga High School in 2002 as Administrator for both our Adult Learning Centre and International Students, and her husband **Allan Fung** began in 2005 as our IT Technician. Those of you who have taken Community Education classes will no doubt have engaged with Tiffany as she has fronted the communication around this huge programme for the past 20 years. We thank both Tiff and Allan for their long term contribution to our school community and wish them well as they move to their new roles.

CHARTER AND ANNUAL PLAN

Our achievement targets for 2022 include achieving at respective curriculum and NCEA levels, as well as students continuing to aim for quality achievement. The full charter is available at <https://www.onehungahigh.school.nz/assets/OHS%20Charter%202022-2024.pdf>

PROFESSIONAL LEARNING AND CONTRACTS

This year, we are participating in the Te Reo Matatini me te Pāngarau | Literacy and Numeracy pilots and also the NCEA mini-pilots for Dance, Gagana Sāmoa and Chinese.

Our school-wide Professional Learning focus is Mana ōrite mō te mātauranga Māori. As well as this, we are progressing work with Accelerating Learning in Literacy (ALL), Accelerating Learning in Mathematics (ALiM) and Mathematics Support Teacher (MST).

TRIENNIAL BOT ELECTIONS

Parent and staff elections have been delayed by the New Zealand School Trustees Association in order for them to develop an online voting option, a move our school has long advocated. Information about elections and the process can be found at <https://www.schoolboardelections.org.nz/becoming-a-board-member/board-elections/>.

Thank you again to Vicki Baker, our Returning Officer, for her management of these elections. The timeline is:

- Call for nominations completed by Friday 15 July
- Nominations close Friday 5 August
- Election day Wednesday 7 September
- Postal votes accepted until Monday 12 September 2022
- Votes counted on Tuesday 13 September
- Board takes office Wednesday 14 September 2022

UNIFORM

A reminder about our uniform policy especially regarding shirts and socks. Essentially, if a student wears shoes then they need to wear socks – and if the shirt is grey, they wear grey socks and if the shirt is white, they wear white socks. Please refer to <https://www.onehungahigh.school.nz/our-school/uniform/> for further information.

SCHOOL BALL

Our school ball is booked for Tuesday 12 July, in the first week of the second term break.

PUBLIC HEALTH CHANGES

Recent changes to the COVID-19 Protection Framework that most impact schools are the removal of vaccine mandates and My Vaccine Pass, including from all school sport.

TIME

One of the many things to learn from Tā Tipene O'Regan, 2022 New Zealander of the Year, is shared by his daughter Dr Hana O'Regan who said of her father "Giving time is his biggest gift ... When time is so precious, he will still give it." At the end of another unprecedented term, I hope you are also able to give yourselves and others, the gift of time.

We wish you a safe and enjoyable Term One break, and look forward to seeing all students at the beginning of Term Two on Monday 2 May, ready for a new adventure in our ever more inviting spaces.

Noho ora mai

Tumuaki | Principal

Y12 BIOLOGY - GOAT ISLAND MARINE RESERVE

It was the third time rescheduling this trip after epidemiological and weather extreme challenges so it was fantastic that the trip could finally go ahead on 25th March.

- "It was a good experience learning more in depth about the marine ecosystem. Being able to snorkel with my friends was a core memory for me and overall this trip was good - learning and socialising wise." - Eva Tan
- The trip was very immersive, and it was great how we got to see what we are researching about close up. The experience at the marine reserve was amazing and I reckon that this experience is unforgettable." - Anonymous

ENVIRO CLUB

This term the Enviro Club has been busy meeting regularly on a Thursday during Break 2. After some initial brainstorming, a key focus for Term One has been developing a partnership with the Onehunga People's Garden. This community group was established a few years ago with keen community volunteers who were interested in regenerating a plot of vacant railway land on Arthur Street.

One sunny Wednesday afternoon this term, fifteen students from our school undertook

a visit to the People's Garden site, observing the vegetation which is currently a mix of introduced weeds and recently planted natives. The students also took measurements of the water quality in the stream; collecting data on water temperature, pH, clarity, dissolved oxygen levels, nitrate, phosphate and macro-invertebrates.

Students have also participated in video calls with students from Royal Oak Intermediate School, where they shared ideas about how

they could collaborate together in helping to be kaitiaki of this area. Moving forward the students are keen to continue monitoring the stream water quality, as well as taking care of a section of the plot by weeding and planting more native species. The Enviro Club students are excited about partnering with the Onehunga People's Garden and other local schools, to help regenerate this plot of land in our neighbourhood.

Y9 ENGLISH "THE PLACES WE'LL GO AND THE STORIES WE'LL TELL"

Our Year 9 students have recently completed beautiful posters displaying creative writing about their favourite place in the world. Students used their senses to write descriptively, making their readers really feel like they were in their favourite place. Students wrote about sunny beaches where they spent time with families, bustling towns outside of Auckland were also a popular choice, as were descriptions of cool forests and local parks. Students presented their work on posters, carefully considering colours, shapes, layout, font and images to best complement their writing.

Year 10 completed a fascinating assignment where they were tasked with researching either a New Zealand or Pasifika historical event or myth and then producing writing inspired by the myth or event before presenting their work on carefully constructed posters. Students really let their imaginations fly in impressive directions; some choosing to research historical events such as the Dawn Raids, Suffragette Movement, and the Signing of the Treaty of Waitangi, some researching the myths of Maui, the Taniwha or Hinepau. Students then wrote a piece of creative writing as a fictional character who was present during that important event or myth. The Year 10s have worked incredibly hard to produce some stunning works of art.

My Favourite Place

Under the water, I feel like I am weightless and free to fly wherever I want.

Exploring a coral reef or swimming through the waving ribbons of a kelp forest is like being transported to another planet where the rules of gravity don't apply. Here, your senses are challenged and treated to completely new things. You can't smell - inhaling water through your nose is not pleasant - but there is so much to see, touch and even hear below the surface.

Open your eyes behind the mask. You're in a strange and beautiful alien landscape where everything is bathed in shimmering, dancing light. As you go deeper, the water drains the colour from your surroundings, painting everything in blue.

It's only when you shine your torch on them do their true colours spring to life as if someone had just painted all of the plants and animals with iridescent light. This is a world without gravity filled with impossibly delicate structures and creatures that could never exist in our dry, unresponsive atmosphere.

The ocean world is incredibly fragile so as you glide by, you try not to disturb the plants and animals all around you. But like that soft looking giant sponge, surfaces can be deceiving. Some appear soft but are hard and rough while other things like kelp are as silky and soft as silk as you glide past them.

Under the water all you think you can hear is your own breathing. But if you listen carefully. There are sounds all around you. Fish croak like rusty door hinges. A crab cracks a shell like an egg with its powerful claws and somewhere, deep, deep in the inky blue, a whale calls to its calf.

But there's another sound, a rhythmic click like a secret code being tapped out deep in the swaying kelp forest. This is just the sound of kina grazing lazily on the plants and organic material they find in the rocks and sand.

Click.

Click.

HAYDEN CHANDLER 9BT

OUR NEW CLASSROOM BLOCK

KAINGA ORA HOUSE BUILD MAKING PROGRESS

The new students have made a great start building the 2022 house. This year's house is a new challenge with Kainga Ora as our client. A new design will keep us all on our toes. Big thank you to Cassidy construction who have sponsored the funding for each Building School student to complete their Site Safe qualification. The students look good in their new Builders Belts donated by the Taurus Leather company.

TECHNOLOGY

Out with the old and in with the new. It's with a little bit of sadness and a lot of excitement moving from the old Technology block to the new. In the process of packing and moving we came across many memories from the past including worksheets and resources from teachers, and projects completed by students.

One of our findings were carvings that were completed by students during the construction of the school Marae (as displayed on the front cover of this newsletter). Gordon Toi Hatfield, our Marae carver, assisted these students with this work. Within the carvings students were to tell their own cultural story and their link to Aotearoa. It was fantastic to see some had the students' names on the back. The carvings were completed in 1996.

The new block is like a new beginning. Students have adapted quickly to the environment and are enjoying the ability to be able to access new teaching spaces that allow them the flexibility to work at different levels, and on different tasks in specialist spaces.

ADULT AND COMMUNITY EDUCATION

There has been a huge uptake of learners wishing to attend classes once again this year. We are delighted with the government commitment last year to extend the reach of adult classes to more communities. Our expanded programmes mean we are able to commit to providing classes that support health and well-being; so important in these changing times.

Our two new building projects at the school have been completed and we are so excited to be able to use these wonderful new teaching spaces. The gymnasium provides state-of-the-art resources and facilities where we are already running classes. From term two we are looking forward to running our technical/vocational programmes from the new block beside the gym. These classes will resume with all the facilities and resources able to be shared with our adult learners and wider community.

We welcome to our programme Marina Kurganova (photo right), our new administrator. Marina has an adult teaching background and experience in prior administration. In the office on a Thursday evening is Saree Biddick who is currently studying full time post-graduate. We warmly welcome both to our team on the school site.

Enrol early to secure your place in class for our Term two programme which starts on Tuesday 17 May.

Our 2022 brochure is available from the school office or you can visit our website www.adultlearn.co.nz for a comprehensive list of programmes and courses offered next year. On-line enrolment is available at a discounted rate.

You can also contact us on comed@ohs.school or 6369060 to enrol over the telephone or for further information.

TERM 1 ROUNDUP

Welcome to Sport in 2022. It's been very different under the covid restrictions but we are super proud of our staff and students who have overcome all the hurdles to get sport up and running in Term 1.

A big welcome to all our Year 9 students and parents to Onehunga High School, we hope you are all settling in well and are ready to represent the school in a variety of sports in 2022.

Term One has been a messy term with hard restrictions and mandates but we have continued to push our sports programme as much as we can through the summer to give our students the opportunities to play.

Our term started off with our school Swim Sports, even though we had small numbers we still managed to get a great morning at the pool to complete our programme and find our new swimming champions.

Our key summer sports this term have been Volleyball and Cricket. Our volleyball teams have had a fantastic season with great results and development. Our premier boys finished 7th at Auckland Champs, 5th in the Auckland premier league, and 1st place in the central/west zone. Our girls came 4th in the central/west zone and finished 1st at Auckland Champs Div 2.

2022 is the first time in many years that we have fielded a 1st XI Boys' Cricket Team after a few years of developing a junior team. The boys battled well through the summer with many close games and a few wins including a good win over St Paul's in the last game of the season.

We are excited about the winter and hope to be able to enjoy a full season of sport.

Term 2 we will be holding our school cross country along with many other sporting opportunities.

Looking ahead to the winter season, I wish all our teams the best for preparations over the coming weeks and look forward to a successful winter season.

Chad Coombes
Director of Sports

MT SMART STADIUM

MUFTI DAY - 3RD MAY

The Prefect Team of 2022 are holding a gold coin donation mufti day event on Tuesday 3rd of May 2022 (Week 1, Term 2) to spread awareness about humanitarian crises such as the Ukraine/Russia conflict, Tonga natural disaster and many others. This mufti day would aim to provide students with a safe platform to spread awareness about a humanitarian crisis that they feel most passionate about. Students and staff are encouraged to replace an OHS school uniform shirt/jumper with a grey t-shirt/ jumper or students have the opportunity to replace full school uniform with full cultural attire.
